Personal Reflection

What's Shaping This Sector

- The entire market can shift in moments depending on geopolitical effects and economic changes.
- As I've discussed, the closure of the Strait of Hormuz and the Ukraine War has caused volatile prices.

My Learnings in CGM

- CGM professionals require critical research, decision-making, and communication skills.
- This sector provides clients: hedging, risk management, storage, and working capital.

Where I See Myself

- Before LEADS, I knew I wanted to pursue a career at the intersection of civics and business.
- This program offered more clarity to specifically the finance industry, widening my perspective.
